Let people in SC make their own decisions regarding Uber. I have had plenty of horrible and dangerous rides in taxis that are according to your standards qualified to drive. Uber isn't just a random bunch of people. They have background checks and are people who are willingly providing a service.

Subject: Uber in SC

Please reinstate Uber in SC. Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides. Many people opt to take Uber rather than drinking and driving. In SC there is not enough access to traditional taxi service.

Thank you,

Emily Ann Stanch

**Subject:** SC Needs Uber

South Carolina needs Uber. It stands for innovation and it promotes safe, accessible rides for people around our state.

I can say with confidence that about 40% of the time I've tried to contact a cab company, it has failed to answer my call, or failed to show up.

Uber always shows up.

Also the cab companies in South Carolina are hardly equipped to meet riders needs. With only a handful having a credit card machine it makes deters one from calling a cab and instead choosing to make a dangerous decision if too intoxicated to drive.

Uber drivers are always extremely accommodating, polite t and they want you to have a pleasant experience. I've had cab drivers, drive off while I'm in the middle of talking to them through the window, snatch money from my hand, and fail to return left items in the cab after I called the company and requested them.

If the cab companies in our state had larger fleets, were equipped with modern day needs, and had friendly drivers, then I would agree, get rid of Uber. But this is not the case and so we need Uber in our state. It's a just plain stupid to take away Uber. South Carolinans are tired of living 5 years behind every other state.

Thank you

It's ridiculous that you are challenging Uber in my state. It's a much easier and safer to use and you are holding back progress. If you feel that there needs to be stricter regulations then you should work with them on that not ban the service completely. Taxis are dying. It's coming sooner rather than later so you are only deferring the inevitable.
